Property Description

We've tried to think of everything; as a result our guest are raving and we love that they are. What we hear most when travelers arrive is 'It is so much bigger than it looks in the photos'

Ideally located on one of the best Venice beach walk streets a few steps from the beach and the iconic venice boardwalk, this casually elegant, two story, designer's home will enchant you. Enter the private front courtyard and you will find an inviting outdoor living room to enjoy the sea breeze or get warm around a large fire pit. Inside the house details abound. An open floor plan with soothing colors, comfortable seating arrangements and bold striped rugs enhance elegant living at the beach. An eat in kitchen with a rustic farmhouse table suitable for large gatherings, shares space with a cozy family room, fireplace and flat screen tv. A full bathroom on the first floor is accessible from outside for after returning from the beach. Upstairs the enchantment continues with 3 light filled, tastefully furnished bedrooms: 1 cal king, 2 twins and 1 full bed with a twin trundle. A vintage bathroom on the second floor has a freestanding tub, toilets, sinks and plenty of counter space and storage. The back patio directly off the kitchen brings the outdoors in. It is tastefully landscaped and perfect for alfresco meals or barbecues. A flight of stairs leads you to the guest apartment located on the second floor above a two car garage. Its wood beamed vaulted ceilings and unusual details add to the comfort and unique feeling of this one of a kind, luxury home. This ensuite studio apartment is equipped with a kitchenette, (bar refrigerator, sink and microwave), and a cal king bed. It is private and ideal for larger families or multiple families vacationing together. For parents, a getaway from a getaway! Free hi speed internet and netflix is included in both the main house and apartment. Throw a towel over your shoulder for a short walk to a great beach perfect for swimming, surfing and boarding. Leave the hubbub and rich color of the boardwalk behind and upon your return to the oasis, an exterior garden shower with hot and cold water is available for rinsing off after your relaxing or energetic day in the surf and sand. You may never want to leave this barefoot luxury compound, but when you tear yourself away you will find yourself a short walking distance to world class shopping, galleries and dining on abbot kinney. Bike ride or walk to the amusement park on the santa monica pier where historic route 66 ends. Marina del rey with sailing and boating opportunities is a bike ride or short car drive away. Easy access to lax airport.
