Property Description

This luxury home has recently been remodeled. It is PERFECT for guests who need a lot of storage and desk space (4 built in desks +1 more) It has granite surfaces in most rooms downstairs with custom built shelving and bookshelves. An interior designer (Who has designed for 100+ airbnbs in the Houston area) put together this masterpiece. 20 miles from downtown Houston.

We will have coffee, cooking supplies, etc

Access to the entire space excluding the garage and a closet in the hallway downstairs and a closet in the hallway upstairs.

****NO extra charges for extra guests unless not specified prior to stay** DISCOUNTS for longer stays (7 days/30 days)****

FOR THOSE WITH KIDS: Upstairs there are 3 entrances (2 of them are crawlspaces from the closets and another is through a door in the hallway) into the attic. I recommend HEAVY parental vision especially for very small children. I will install cabinet baby locks on the doors to prevent any hazards with this but I still recommend supervision for this.
